APPENDIX

The Vacation Ownership Sentiment Index: Our Mission

- ▶ Inform industry stakeholders with a regular monthly pulsing of timeshare owner sentiment and forward-looking anticipated behaviors relative to the broader traveler market
- ▶ Track, trend and report out an aggregate and singular consumer driven industry sentiment index metric, alongside other related and trendable component measures including
 - Planned travel and expenditure levels
 - Willingness to travel and make reservations
 - Widening or narrowing of booking windows
 - Recent and anticipated guest experience service delivery and satisfaction
 - General sentiment and perceptions of key category engagement drivers
 - Relative variances in travel engagement levels and behaviors between timeshare owners and the broader travel market
- ▶ Provide a simple and dynamic scorecard or dashboard on consumer travel sentiment

Study Methodology:

- ▶ Online, monthly survey with nationally representative equal samples of 500 U.S. based leisure timeshare owners and augment representative sample of 500 leisure travelers to facilitate comparisons and trend analysis.
 - 10-15 question online survey
 - All respondents to have actively traveled a minimum of 50 miles from home for vacation within the past year
 - All respondents rigorously screened for timeshare ownership through multi-part validation process
 - Conduct significance testing to draw out meaningful response variances across a variety of demographic, attitudinal and behavioral attributes
- ▶ Correlation Analysis performed against each individual survey measure against a logical dependent variables tied to propensity to spend time and money on travel, to determine and isolate those measures that comprise the Index and from which to compare and trend timeshare owner sentiment over time.
